Regency is a top grain corrected leather with a natural looking grain surface. With a soft hand and a good drape, it is an excellent value priced leather with extremely good yield characteristics. This leather is recommended for its resilient surface and performs well in higher traffic areas. Trinity maintains an inventory of 17 Regency colors, but additional colors and special matches are available. A special finish powered by Crypton is also available for added durability and cleanability. Please contact customer service for additional information.

Antiquity is a beautifully antiqued leather combining traditional hand craftsmanship with modern leather tanning and finishing technology. The antiquing which gives this fine leather its distinctive appearance is applied over a richly colored background. The surface is then enhanced with a polished sheen which accents the intricate blending of the dyes. Trinity maintains an inventory of 7 Antiquity colors, but additional colors and special matches are available. Please contact customer service for additional information.
