## Standard Wood Finishes and Laminates

### Special Finishes

Special finish matches are also available. A finish sample is required and must be submitted to Trinity with the order.

### Antimicrobial Properties

All wood finishes are specially formulated to inhibit the growth of bacteria and mildew.

### Limitations

The finishes illustrated are on solid cherry, which is generally the standard wood species used for Trinity Furniture models. Certain models may use a different wood species with different grain characteristics. Please review the product specifications of each furniture item to be certain of the wood type used and available finishes.

### Important Note

These samples are a printed representation and are as accurate as technology will allow. Actual wood samples are available upon request. Wood color and grain characteristics will vary and exact matches are impossible.

### \* Laminate matches are available for wood finishes with an \*.

A laminate table top may be specified with a simulated wood grain and appearance to match any of these solid wood finishes.

Please contact customer service for information.
